

TOPICS

- Division of a line segment.
- Construction of a Triangle.
- Construction of Tangents of a Circle.

MIND MAPING

KEY POINTS

1. Construction should be neat and clean and there should be no doubling.
2. Construction should be as per a given scale factor which may be less than 1 or greater than 1 for a triangle similar to a given triangle.
3. Steps of construction should be provided only when it is mentioned in the question.
